

INTRODUCTION

Through the years, BRUSKE PRODUCTS has developed and manufactured floor care and specialty cleaning care products that have revolutionized the industry. Bruske has a proven track record for total dependability by providing industrial, commercial and institutional customers with products that literally share no equals. Bruske quality-crafted products are the kind of products that represent the ultimate in manufacturing quality and long life.

The Bruske Brush™ was originally engineered as an answer to the frustration, waste and premature replacement of conventional floor brushes due to sagging bristles and broken handles. The Bruske Brush is the ultimate floor brush...absolutely perfect for the heavyweight needs of metalworking plants and food processors... to the lightweight needs of hospitals and universities. It's INDESTRUCTIBLE!

Bruske Brushes and Bruske Brooms™ are made for indoor and outdoor use. They are sweeping tools you can depend on. Each brush and each broom is designed, engineered, and manufactured to give you a floor care product that will last up to ten times longer than any ordinary floor product you may be using.

All Bruske products are constructed with the finest bristle materials...miracle synthetics or natural fibers. There's a bristle material product for your use in the Bruske line that is durable, is not affected by acids, alkalines or most solvents and your Bruske product will keep on sweeping...wet or dry, under the most adverse conditions.

Bruske Brushes and Bruske Brooms are available in an excellent selection of bristles, as well as in a wide variety of sizes to meet just the right requirements of each job. They are available in super fine up to heavy duty coarse bristles that will take care of all floors or surfaces, indoors or outdoors.

In addition, Bruske's famous all steel or hardwood bolt-on "Miracle Tip™" handle eliminates all handle breakage and thread stripping problems normally associated with ordinary floor brushes. It's "guaranteed not to break"!

Bruske Brushes and Bruske Brooms are INDESTRUCTIBLE! They will sweep better, last longer, and cost less than conventional floor brushes and brooms...I PERSONALLY GUARANTEE IT!

GENERAL ORDERING INFORMATION... We have made every effort to make it easy and convenient for you to order Bruske Products. If for any reason you have not received a current price list on the products in this catalog, please bring it to our immediate attention and we shall see that you get one immediately. If your local Bruske Products representative has somehow missed calling on you in person, and you wish to place an order, please call Bruske Products direct at 708-532-3800.

WHEN ORDERING:

Please specify OUR model number, name of item and description when applicable, and quantities. This will insure prompt and accurate handling of your order.

TERMS:

Net thirty (30) days, FOB Tinley Park, IL. Prices are subject to change without notice and shipment will be invoiced at the prevailing price at the time of shipment.

QUANTITY DISCOUNTS:

Special allowances that apply to quantity discounts for ordering in specific quantities are subject to conditions outlined on current price lists.

BRUSKE BRUSH AND BRUSKE STREET SWEEP GUARANTEE

BRUSKE BRUSHES and BRUSKE STREET SWEEPS are guaranteed for five (5) years against defects in materials, workmanship, or breakage while in use. The Bruske "Miracle-Tip" handle is guaranteed for one (1) year from defects in materials, workmanship, or breakage within eight (8) inches of metal connector while in use. Broken brushes and handles should be returned to our factory and will be replaced free of charge.

Exclusions: Abuse and/or neglect.
