**BRUSKE HIGH DENSITY POLYESTER SPONGES ARE THE BEST THAT MONEY CAN BUY!** High quality Bruske Sponges last 10 times longer than conventional sponges. They'll hold up to 22 times their weight in water. Unlike cellulose and urethane sponges, Bruske Sponges resist tearing and shredding, never get hard and are not affected by most chemicals, including acids.

- Model No. 9850 Automotive Sponge (wash cars, vans, et al)
